

SPARTUS® EasyMIG 220E Pulse

Product code: EasyMIG220EPulse-Synergy_pak_24-3

Package equiped: • Device SPARTUS® EasyMIG 220E Pulse Synergy • MIG gun SPARTUS® SPE 240 3m(*equipped with a graphite insert) • Electrode holder • Work Clamp • Gas hose • User's manual

Product description

Modern, synergistic MIG with pulse current welding function

SPARTUS® EasyMIG 220E PULSE is a modern, inverter welding semi-automatic device. It enables welding with three welding methods: a consumable electrode shielded by inert or active gases (MIG/MAG), a coated electrode (MMA) and non-consumable electrode shielded by inert gas TIG Lift (start arc ignition by scratching). In addition, the device thanks to the ability to change the polarity of welding, enables welding with self-shielding wire without gas. The maximum welding current for all methods is 200A. The unit is powered from single-phase network 230V.

SPARTUS® EasyMIG 220E PULSE is equipped with synergistic programs for MIG / MAG dedicated for welding steel alloys, stainless and acid-resistant steels as well as aluminum. It has a program to welding with self-shielding wire. All parameters are adjusted using an easy to use and intuitive control panel function. Constant output parameters are guaranteed by the use of modern technologies and a high quality wire feeder. The device uses technologically advanced MIG / MAG functions:

welding with pulsation – makes it easy to transfer material to weld pool welding inductance adjustment possibility to choose one of two operating modes 2T/4T SPOT welding

Technical parameters

ding current MIG [A]	20 - 200
y cycle MIG [%]	60
put working voltage [V]	15 - 24
e feeding speed [m/min]	2 - 16
e feeder	built-in, 2-roll gear
ding wire spool [kg]/[mm]	≤5 / 200
e diameter Ø [mm]	0.6, 0.8, 1.0
itional features	pulse, 2T/4T control , TIG lift welding, change polarity, Burn Back, inductance control, synergy, SPOT, synergistic program, gas test, Slow feed
ding current TIG [A]	20 - 200
ding current MMA [A]	20 - 200
rent consumption [A]	32,5
er factor (cosφ)	0,85
iency η [%]	85
lation class	Н
ection class	IP23
ght [kg]	19
ensions [mm]	540 x 470 x 245
