

SPARTUS® WOLF grinding helmet with the air supply

Product code:

080-10-030N

Product description

SPARTUS® WOLF grinding helmet with the air supply system

The SPARTUS® WOLF helmet was designed to protect eyes and face from dust and sparks during grinding. The durable polycarbonate shield with a wide field of vision provides better control over the work. The ergonomic shape, adjustable headgear and low weight of the visor allow for extended work without feeling fatigued.

The SPARTUS® air supply system has a high level of respiratory protection TH3P thanks to a set of replaceable filters, including a main HEPA filter and an activated carbon pre-filter. The whole system is protected by a spark shield. The connection between the breathing hose and the visor housing provides freedom of movement during work.

The use of the air supply system with adjustable speed control guarantees a constant supply of fresh air, which is extremely important for long-lasting work. Continuous ventilation increases comfort and reduces fatigue levels and also prevents fogging of the lens, improving work efficiency.

Set contains:

■ SPARTUS® WOLF grinding helmet ■ air supply ■ hose with protective sleeve ■ 2pc. HEPA main filters ■ spark shield ■ 4pc. active carbon pre-filters ■ lithium-ion battery ■ charger with replaceable tips ■ bag

Technical parameters

Application	grinding
Active field of view [mm]	350 x 202.5
Adjustment knob and switch	
Weight air supply [kg]	0.340
Variable air supply speed control [l/min]	level 1: min. 180, level 2: min. 220
Operating time [h]	level 1: 10; level 2: 9
Charging time [h]	2.5
Noise level max. [dB]	60
Air hose length / dimensions	850 - 1200mm including the plug / fi 36mm
Standards	EN 12941:1998 / A1:2003 / A2:2008 TH3P R SL
