

Anti-spatter liquid PROTEKTOR 20l

Product code:

SP130-02-003

Product description

Liquid SPARTUS® PROTEKTOR is preparations dedicated to internal parts of gas nozzles, tools and metal surfaces. It prevents the adherence and melting into the surface of splinters during MIG/MAG welding, laser welding, brazing and bonding. Thanks to its application additional treatment is not required. The preparation do not contain any silicone. Product is a non-flammable and contain a corrosion inhibitor. The preparations contain degreasing components that dissolve oils and fats on the protected items. It mostly reduces the need to degrease the surface before further works (for example before painting or galvanizing).
