

Narrow gap gas nozzle [NG] 150

Product code: 51-55-150

Product description

During welding of various types of construction are places where is hard to reach when using standard MIG burner. To handle this difficult situation you can use our Narrow-Gap Welding Set. A special set for welding in narrow gaps. This set is compatible with MIG burners such as: type 360/401/501.

Components:

- contact tube
- contact tip
- conduit (insulated protection tube)
- protection cap – insulation, resistant to high temperatures and thermal impacts
- special gas nozzle – covered with shell resistant to high temperatures and welding spatter

Construction and shape of gas nozzle allows to weld with good observation of welded joint and minimum adhesion of spatter without need to use of anti-spatter liquid spray.

Narrow-Gap Welding Set is available in few variants of length: 60, 90, 120 and 150 mm. Examples of welding Guns which are compatible with set: SPARTUS Easy SPE36, SPARTUS Master SPM36R, SPARTUS Master SPM401, SPARTUS Pro SPP501.

Technical parameters

Set NG	150
Application	360, 401/501

PRODUCT CATEGORIES: [FIT TO NW® / SPARTUS® 360 / 401 / 501](#), [NARROW-GAP WELDING SET](#)
