

PAINT SPRAY GUN HP NOZZLE - 1.3MM

Product code:

SP703-10-013

Product description

SPARTUS® Pneumatics paint spray gun HP nozzle

SPARTUS® Pneumatics HP (High Pressure) paint spray guns enable a fast application of sprayed materials with simultaneously reduced air consumption vs. other painting systems. In view of their practicality and functionality considerations, the high pressure SPARTUS® Pneumatics HP paint spray guns can successfully be used both in the entire industrial and building sector and for creative leisure uses at household workshops and garages. High pressure spray guns will prove excellent for the fast application of any sprayed material and can be supported by less effective compressors. The offered Pneumatic HP spray guns are suitable for the application of woodstains, putties, primers and base coats, colourless and mono-constituent lacquers, adhesives and putties, as well as many other materials.

Technical parameters

Type of nozzle	HP
Operating pressure [bar]	2
Nozzle ø [mm]	1.3
Air consumption [l/min]	255 - 283
Capacity of cup [ml]	600
Air inlet	1/4"
