

## QUARTZSystem - lens short ver. CUP GUARD S #16 [for electrode 1.6mm]

**Product code:** NW17-32D32-16-KPL

**Status:** News

### Product description

QUARTZSystem is a modern solution for welding alloys of steel, stainless steel and aluminum. The special glass compound used in the production of QUARTZ nozzles is characterized by extraordinary resistance to high temperatures. The transparent nozzles provide excellent visibility and control of the arc during welding.

The new **GUARD** solution was developed to improve efficiency, durability and safety. The used brass adaptor allows for better control of the gas and reduced scattering of it. In addition, the protective ring on the QUARTZ nozzles strengthens it and protects it from damage, making it even more durable.

The use of QUARTZSystem solutions guarantees high-quality welds. The welding process is more precise and accurate. In addition, the use of transparent nozzles improves the comfort of work, making it less tiring and more efficient.

### Set contains:

NW17-26N10	Gas insulator
NW17-25T16	Collet
NW17-35S16	<b>Lens</b>
NW9-17-32A32	<b>Brass adaptor</b>
NW9-17-32R32	O-ring
NW9-17-32S16	<b>Stainer</b>
NW9-17-32P32	Protective ring
NW9-17-32D32	Gas nozzle

### Technical parameters

<b>Electrode diameter [mm]</b>	1.6
<b>Application</b>	17 / 18 / 26 / 170F / 26MP / 250F / 1726R / 1726 / 1726P

PRODUCT CATEGORIES: [QUARTZSYSTEM](#), [CONSUMABLES](#), [SET](#), [TIG](#)
