

Product code:

SP15R-00-012

Rotary torches to MIG/MAG guns.

The special construction design which is used in the all R series burners allows to rotate the torch over a 360 degree range - without problems with wire feeding.

Rotary torch increases welding comfort. It allows to better welding when there is problem with access to the welded area. Both lead to better results: welding efficiency and weld quality.

Rotary burners are available in four variants: 150R, 240R, 250R and 360R, and are compatible with standard operating parts for burners 150, 240, 250 and 360.

Technical parameters

Application

150, 250, 240/241, 360

PRODUCT CATEGORIES: 150, CONSUMABLES, 360, 240 / 241, 250
