

SPARTUS® 3000 double-column two-axis rotary welding positioner

Product code:

SP025-00-003

***the price does not include shipping costs**

The time of order fulfillment: 8-9 weeks.

Product description

Long and wide elements require specialized processing equipment, where SPARTUS® double-column two-axis rotary welding positioner are irreplaceable. The use of this class of equipment significantly increases the level of work safety and reduces its time. They are perfect for welding tanks, pressure vessels and trailer frames. It is possible to adjust the mounting brackets and the control interface to the individual needs of the customer.

Benefits:

screw axle lift mechanism

the possibility of making it under an individual order

Accessories available: columns in the mobile version, runways, rotation drive on both columns, nut wear sensor, laser rangefinders, automatic cable winders

► MADE IN EU

Technical parameters

Workpiece weight	3000kg
Max. diameter of the element	3400mm
Rotation speed	0.12-1.2 r/min
Height range	700-1800mm
Input	~3× 400V ± 10% 50 / 60 Hz

PRODUCT CATEGORIES: [MACHINES](#), [WELDING ROTATORS](#), [POSITIONERS AND ROTATORS](#)
