Product description

SPARTUS® LS87 LASER WELDING HELMET – FULL PROTECTION DURING LASER WELDING

The SPARTUS® laser welding helmet combines safety and working comfort. It is an essential tool during operations using a laser welder.

WIDE FIELD OF VIEW

The welding helmet provides a wide field of view with dimensions of 112x120mm. This allows you to follow the welding process without any visibility restrictions.

HIGH-CLASS PROTECTION

The SPARTUS® laser welding face shield protects against harmful laser radiation.

Wavelength range: 900-1100nm OD7+

DIN protection class: 4

Filtering highly specialized: 900-1100nm D LB6 + IR LB7 LP S

COMFORT AND DURABILITY

The face shield has been designed with comfort and durability in mind. Its ergonomic shape and comfortable mounting ensure stability and comfort of wearing for a long time, even with intensive use.

Technical parameters

Application	laser welding
Active field of view [mm]	112 x 120
Wavelength range	900-1100nm OD7+
DIN protection class	4
Filtering highly specialized	900-1100nm D LB6 + IR LB7 LP S
