

Flexible swan neck with contact tip holder 150F

Product code: 15F-00-001

Product description

Flexible torches to MIG/MAG guns.

The flexible torch in MIG gun allows to adjust burner bend angle to current needs of operator. It also allows to set up the burner in straight position. This is a solution that improves the welding comfort when welding in areas with difficult access to the welded area.

Flexible torches are available in two variants: 150F and 250F. Both designed for gas cooled mig guns. Burners are compatible with standard consumable parts.

Technical parameters

MIG torch	hand flexible
Application	150

PRODUCT CATEGORIES: [150](#), [CONSUMABLES](#)
