	10	1 900					
	15	1 400					

SPARTUS® Pneumatics screw compressors are built using the best components provided by global industry leaders.

## DESCRIPTION

Advantages of the device:

- low-noise operation (67-72 dB)
- belt drive enabling easy modification of performance and maximum pressure by changing the pulley ratios
- simplified access to maintain the airend
- microprocessor controller with idle run function

-reliable screw airends by global manufacturers (GHH RAND) designed for continuous operation

-asymmetric design rotor's profiles to generate maximum power and performance at minimum energy cost
