

**COMPLETE SAFETY, MAXIMUM COMFORT**

The **SPARTUS® BEAR** face shield has been designed with eye and face protection in mind. With interchangeable shields and a specially contoured shape, the face shield can adapt to various user needs, providing protection during grinding, and cutting.

**i** INFORMACJE

**WIDE FIELD OF VIEW AND COMFORTABLE WORKING**

The face shield offers a wide field of view, enhancing freedom of movement during material processing. Thanks to its ergonomic design, adjustable headband, and lightweight construction, users can work comfortably even for extended periods.

**RELIABLE PROTECTION**

The SPARTUS® BEAR face shield in its standard version is dedicated for grinding applications. Extending its functionality for cutting purposes is possible by exchanging the shield. The shield, made of durable polycarbonate, effectively protects against high temperatures and debris.

| COVER                     | GRINDING | CUTTING |
|---------------------------|----------|---------|
| Fixed cover - transparent | ✓        |         |
| Fixed cover DIN2          | ✓        |         |
| Fixed cover DIN3          | ✓        |         |
| Fixed cover DIN5          | ✓        | ✓       |

**VERSATILE SAFETY**

The SPARTUS® BEAR face shield is a safe solution for use with various types of respiratory protective masks, as well as ear defenders. Thanks to its ergonomic design, the face shield ensures user comfort even when wearing both a respirator mask and ear defenders.
