

# LASER WELDING CELL

[spartus.info](http://spartus.info)

**Ensure Maximum  
Safety in Laser Work!**

» We offer ready-made laser welding cells and components for building custom workstations – quick to assemble and compliant with safety standards.

## 3 Ready-to-Use Laser Welding Cell Options!

### » MODEL A

» **3360x3300 mm**  
Compact – perfect  
for small spaces

### » MODEL B

» **4460x4400 mm**  
Medium – optimal  
for most applications

### » MODEL C

» **5560x5500 mm**  
Large – ideal for advanced  
production lines

## Build Your Own Laser Welding Cell!

Modular screens and doors enable protection to be configured according to your needs.

» Screen  
**1100x2000 mm**

» Screen with  
viewing window  
**1100x2000 mm**

» Door  
**1100x2000 mm**

» Door with  
viewing window  
**1100x2000 mm**

### Why is it worth it?

**Compliance** with laser safety standards: DIN EN 12254:2012-4, EN 60825-4:2006, DIN EN 12254:2010+AC:2011

**Easy and fast** assembly with expandability

**Effective protection** against Class 4 laser radiation

**Modern** and aesthetic design

**Secure your laser welding workstation today!**
