

SPARTUS®

SPARTUS® WELDING POSITIONERS

15P | 30P | 50P | 100P

■ SPARTUS® – WELDING POSITIONERS CREATED FOR ACCURACY AND EASE OF USE

SPARTUS® welding positioners are indispensable devices that significantly improve efficiency and work quality when welding components. They enable smooth and precise rotation of parts, allowing the welder to focus on arc control and achieving perfect welds.

Single-phase 230V power supply makes them highly versatile and ideal for all workshop conditions. Stepless speed adjustment and the ability to change rotation direction ensure optimal positioning of the workpiece, resulting in greater comfort and consistent results.

The robust and stable design of SPARTUS® positioners ensures reliability, while intuitive operation reduces welding preparation time. With compatible accessories such as lathe chucks and foot controls, these devices become even more versatile and functional.

SPARTUS® positioners provide professional support both in serial production and single-piece projects, wherever precision, ergonomics, and high weld quality matter.

WELDING POSITIONER SPARTUS® 15P

Product code: SP020-00-015P

Package includes:

- control cassette
- wired foot control

Applicable lathe chuck:

SPARTUS® 80P

Clamping range:
2 - 70mm

Product code: SP029-00-080P

WELDING POSITIONER SPARTUS® 30P

Product code: SP020-00-030P

TECHNICAL PARAMETERS

Input	~1 x 230V ± 10% 50 / 60 Hz
Horizontal loading capacity	30kg
Vertical loading capacity	15kg
Working table diameter	315mm
Working table height[400mm
Working table tilting angle	0 - 90°
Working table rotation speed	1 -12rpm
Rotation motor	80W
Dimensions	380 x 380 x 400mm
Weight	35kg
Applicable lathe chuck	80P / 200P / 201P

Package includes:

- control cassette
- control plug
- wired foot control

Applicable lathe chuck:

SPARTUS® 80P / 200P / 201P

Clamping range:
2 - 70mm

Product code: SP029-00-080P

Clamping range:
10 - 210mm

Product code: SP029-00-200P

Clamping range:
10 - 300mm

Product code: SP029-00-201P

WELDING POSITIONER

SPARTUS® 50P

Product code: SP020-00-050P

TECHNICAL PARAMETERS

Input	~1 x 230V ± 10% 50 / 60 Hz
Horizontal loading capacity	50kg
Vertical loading capacity	25kg
Working table diameter	315mm
Working table height[400mm
Working table tilting angle	0 - 90°
Working table rotation speed	0.25 - 6rpm
Rotation motor	120W
Dimensions	380 x 380 x 400mm
Weight	35kg
Applicable lathe chuck	80P / 200P / 201P

Package includes:

- control cassette
- control plug
- wired foot control

Applicable lathe chuck:

SPARTUS® 80P / 200P / 201P

Clamping range:
2 - 70mm

Product code: SP029-00-080P

Clamping range:
10 - 210mm

Product code: SP029-00-200P

Clamping range:
10 - 300mm

Product code: SP029-00-201P

■ WELDING POSITIONER

SPARTUS® 100P

Product code: SP020-00-100P
